|  |
|--|
| <p><b>Reason</b></p> <p>In EU Eastern European countries there are several regions where the infrastructure to practice sports for disabled people it is underdeveloped and this should be the basis to start any kind of sports related treatment and education for them.</p> |

The persons with a disability themselves should be addressed and informed. At its best such campaigns are established with support from the mainstream sport movement, national sport and disability sport authorities and disability organisations (in particular associations); <u>in addition, it is important to organise information campaigns not just for people with a disability, but also for the general public, in order to help them understand, accept, integrate and learn how to help their peers with disabilities.</u></p> |

|   |
|---|
| <p><b>Reason</b></p>  |
| <p>Because of the underdeveloped infrastructure and lack of information campaigns, most of the time the healthy people are not aware of the possibilities of practicing sports for disabled people.</p> |

|  |
|--|
| <p><b>Reason</b></p>   |
| <p>There are regions where the volunteer work it is not widespread, and people are not aware of the importance of working for the community without having any financial benefits from their work.</p> |
