

In attention of Mr. Jos Delbeke, Director General, DG Climate Action

Dear Mr. Delbeke,

I would like to inform you that I was nominated by the ENVE Commission of CoR as the rapporteur on COM(2014) 445 final on resource efficiency opportunities in the building sector. Based on the roadmap for the COM formulated by DG ENV, the activity carried out by DG CLIMA is highly connected to the theme of the COM.

My team has already begun working on the consultation process in order to establish an efficient consultative framework with a wide range of actors, experts, organisations.

In this respect it would be very useful to know if DG CLIMA is willing to identify a contact person, representing the thoughts and approaches of DG CLIMA. During my last rapporteur activity I concluded that it would be necessary to contact all relevant DGs at the very beginning, not just the lead DG.

I hope you welcome this approach, and we can establish a sound cooperation regarding the formulation of the CoR opinion mentioned above.

Sincerely,

Csaba BORBOLY
Member of the Committee of Regions (RO/EPP)
