

**In attention of Mr. Dominique Ristori, Director-General, DG Energy**

Dear Mr. Ristori,

I would like to inform you that I was nominated by the ENVE Commission of CoR as the rapporteur on COM(2014) 445 final on resource efficiency opportunities in the building sector.

My team has already begun working on the consultation process in order to establish an efficient consultative framework with a wide range of actors, experts, organisations. In this respect it would be very useful to know who will be the contact person from DG Energy, representing the thoughts and approaches of the EC. During my last rapporteur activity I concluded that it would be necessary to contact the relevant DG at the very beginning, so consultation with the person representing DG Energy can be more effective and useful.

I hope you welcome this approach, and we can establish a sound cooperation regarding the formulation of the CoR opinion mentioned above.

Sincerely,

Csaba BORBOLY  
Member of Committee of Regions (RO/EPP)
