

AMENDMENT

José Antonio MONAGO
TERRAZA

Investment plan and European Fund for Strategic
Investments

COTER-VI-003

Recital 11

<i>Text proposed by the Commission</i>	<i>Amendment</i>
(11) The EFSI should support strategic investments with high economic value added contributing to achieving Union policy objectives.	(11) The EFSI should support strategic investments with high economic value added contributing to achieving Union policy objectives. In this regard, projects located in less developed regions, with high unemployment rates, should be prioritized, ensuring a significant impact in the real economy and in the society.

Reason

The European funds are aimed to contribute to correct the main regional imbalances within the EU. Hence, if the EFSI together with the existing EU funds are prioritized to less developed regions, this goal will be achieved in a shorter period of time.
